EDUCATION

- **Bachelor of Technology in Computer Engineering**
Graduation Duration: 2019 - 2023
DBATU University, Lonare
CGPA: 8.56

SKILLS

- **Interpersonal Skills:**
Team Work, Quick Learner, Collaborate
- **Programming Languages:**
Java, C, Python.
- **Databases:**
MySQL, PL/SQL
- **Web Technologies:**
HTML, CSS, JavaScript, Bootstrap,
Familiar with React.js
- **J2EE Technologies:**
JDBC, Servlet, JSP
- **Java Framework:**
Familiar with Spring, Spring Boot.
- **Testing & Debugging:**
Unit Testing, Debugging, Break Point
Technique.
- **Version Control and Tools:**
GitHub, JIRA, Maven, Postman, Apache
Tomcat
- **Other:**
Software Development Life Cycle, Agile
Methodology.

CERTIFICATIONS

- Oracle Associate Java SE 8 Programmer (OCJP/OCJA)
- Oracle Cloud Infrastructure Certified Foundations Associate
- Web Development by Dell
- Python 3.4 by

HOBBIES

- Indore/Outdoor Games
- Listening Songs
- Watching Movies

PROFESSIONAL SUMMERY

Highly motivated and skilled **B. Tech Computer Engineer** with **7 months of work experience** as **Java Full Stack Development** and having **Java SE 8 Oracle Certified Associate (OCA)**. Proficient in **Java SE, J2EE Technologies, Front End Technologies, Databases** and familiar with **Java Frameworks**. Possess a strong foundation in **software development principles** and a keen desire to contribute to challenging projects. Proven ability to **grasp new technologies quickly** and **collaborate effectively** in team environments. Ready to deliver **impactful solutions for organization's success**.

WORK EXPERIENCE

- **Intern - Delivery | Virtusa Pvt. Ltd Link** **Dec'22 - Jul'23**
Tech Stack: Java, JDBC, PL/SQL, React.js, Spring Boot, Maven, Unit Testing.
Roles and Responsibility:
 - Develop engaging and user-friendly interfaces using React.js, harnessing its ecosystem for interactive designs.
 - Build robust and scalable server-side functionalities using Java and Spring Boot, ensuring a reliable backend.
 - Create and implement RESTful APIs for seamless communication between front-end and back-end systems.
 - Integrate database with PL/SQL for secure data storage and retrieval.
 - Collaborate closely with teams to align project goals and timelines.
 - Proactively tackle technical challenges, debugging code, optimizing performance, and enhancing security.
- **Web Developer | Fusion Technology, Mumbai** **Mar'22-May'22**
Tech Stack: HTML, CSS, JavaScript, PHP, MySQL, XAMPP Server, Canva.
Roles and Responsibility:
 - Developing adaptable websites and managing web content ensure a seamless user experience for all using PHP.
 - Manage a database, utilizing MySQL for secure data storage, retrieval, and efficient using XAMPP Server.
 - Generate customized logos and illustrations using Canva, to fulfill each client's distinct branding requirements.
 - Collaborate with teams to complete project goals, requirements, and timelines effectively.

PROJECTS

- **FuziQuill - The Grading System using NLP and Fuzzy Logic**
Tech Stack: HTML, CSS, Bootstrap 5, Python, Machine Learning, NLP, and Fuzzy Logic, Django, SQL Lite.
 - This intelligent system automates descriptive handwritten assessment grading by integrating NLP, and a Fuzzy Inference System and transforming handwritten images into text using Azure AI's OCR Services.
- **Hospital Management System – MVC Architecture Web Application.**
Tech Stack: HTML, CSS, JavaScript, Bootstrap, JDBC, MySQL, JSP, Servlet, Maven.
 - A Java-based Management System that utilizing MVC architecture via Maven, to oversee hospital activities including patient and doctor management, appointments, and record-keeping.
- **To-Do List Web App – MVC Architecture based CRUD Application.**
Tech Stack: HTML, CSS, JavaScript, Bootstrap, JDBC, MySQL, JSP and Servlet.
 - The application facilitates seamless communication with a database, enabling efficient CRUD operations for a reliable task management solution.

EXTRACURRICULAR ACHIEVEMENTS

- Secured the 3rd position in TechnoCave 2023, a prestigious National Level Mega Computing Event called InnoVission.
- Recognized as the 4th Best Performer in Java Technology at IDBI In-Tech, earning accolades with Swag.
- Completed comprehensive Java Full Stack Training @Palle Technologies from CSR Program.
